## MEMORANDOM OF ACREEMENT BETWEEN CIA AND STATE RE SE CABLES

Because of certain changes in CIA organization the Department of State and CIA have considered it useful to re-examine arrangements whereby the Department has been making available to CIA certain special cables through the Office of the Secretary of State. The following understandings have been reached as a result of the re-examination:

- a. The Department of State will make every effort to supplicate directly to CIA, through direct distribution or through the IAE liaison channel, all intelligence reports of interest to CIA. I addition the Department will continue to supply to the Central I telligence Agency, through the channel indicated in paragraph f. below, two copies of operational and policy telegrams of interest and concern to CIA which may be considered so sensitive as to not be placed within the normal lisison channel.
- b. The external distribution of the Daily Intelligence Bulletin, which will replace the CIA Daily Summary, is:

The President Secretary of State Secretary of Defense

- c. Inclusion of materials from the Special State Department distribution in the Daily Intelligence Bulletin will be based or importance in terms of intelligence rather than operations or period developments. The agencies will rely upon close contact between the Office of Current Intelligence and SS to develop understancings regarding inclusion of sensitive materials.
- d. Because of State Department's legitimate concern with regard to the extent of third agency use of State Department sensitive cables, any extension of the proposed distribution (separagraph b above) will be done only after consultation with the State Department.
- e. The responsibility for receipt and internal CNA distrib tion of telegrams under consideration shall be the Office of Cur ent Intelligence with the understanding that distribution will be in iteleto; the Office of the Director, the Office of National Histinate; and to Daily Intelligence Bulletin editors as necessary for their background information.

## Approved For Release 2006/12/26 CIA-RDP80R01731R003500060021-9
